Picture

High-Performance Video System
Advanced circuitry delivers outstanding picture performance.

- **High-Performance Video Amplifier**
  Delivers high resolution and clarity by extending the video frequency response.
- **Dynamic BlackStretch Circuitry**
  Extends black levels in bright scenes to enhance contrast and detail.
- AutoColorControl
  Automatically maintains natural flesh tones and color fidelity from channel to channel and scene to scene.
- **Adjustable Color Warmth**
  Customer-selectable color temperature system allows for background color balance adjustment of the picture to personal preference. Setting choices are Cool, Warm, or Normal.
- **Contrast/Color Tracking System**
  Synchronizes contrast and color settings to maintain vibrant images.
- **Adjustable Picture Control**
  Custom picture settings are just a button-press away. Adjust and store Contrast, Color, Tint, Black Level, and Sharpness settings for personal picture performance depending on your own individual tastes.

➤**Dark-Tint, High-Contrast Picture Tube**
Dark glass picture tube delivers outstanding picture contrast for blacker blacks, brilliant whites, and deep rich colors even in bright room conditions.

- **Preferred Picture Presets**
  Optimize the picture by selecting the correct setting depending on the lighting conditions of the room. Choose between four settings for bright lighting, normal lighting, dim (soft) lighting, and a customer-selectable and savable "personal" setting.
- **181-Channel Tuning Capability[2]**
  Digitally-controlled frequency synthesis tuning system "locks on" to cable and standard signals with unsurpassed accuracy.

Sound

- **Broadcast Stereo with dbx[3] Noise Reduction**
  Improves the clarity and fidelity of stereo broadcasts by restoring dynamic range and suppressing unwanted noise.
- **Low-Noise Audio System**
  Delivers a 60dB signal-to-noise ratio for spectacular quality sound.
- **Second Audio Program (SAP)**
  Decodes the second audio program available on some broadcasts.
- **Separate Bass/Treble Control**
  Customize audio sound output to specific room environment or personal preference via on-screen menu adjustment.
- **Front-Fired Speaker System**
  Front-fired full-range frequency drivers provide excellent imaging while localizing voices at the screen.
- **Sound Logic™ Audio Leveler**
  When turned on, eliminates the annoying "blast" of sound during commercial breaks.

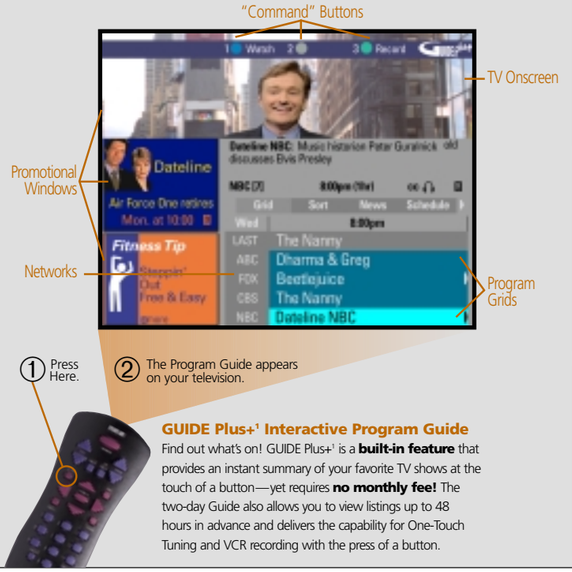
Remote

➤**ChannelLock Direct Access Remote CRK17TA1**
Ergonomic design and color-coded buttons make it easy to control power, volume, direct access of channels, plus TV picture adjustments and features.

Convenience

GUIDE Plus+ GOLD

Program Listings and One-Touch Record...Right through your remote control!



GUIDE Plus+[1] Interactive Program Guide
Find out what's on! GUIDE Plus+[1] is a **built-in feature** that provides an instant summary of your favorite TV shows at the touch of a button—yet requires **no monthly fee!** The two-day Guide also allows you to view listings up to 48 hours in advance and delivers the capability for One-Touch Tuning and VCR recording with the press of a button.

2 ways to find your programs

The Grid Guide
Using the directional arrow pads on your remote, you may scroll through up-to-the-minute TV listings, or scroll to future programs. As each channel grid is highlighted, a description of the current program appears in the information area above the channel listing.

The Sort Guide
Want to relax and watch a movie? SORT lists movies by theme that are on for the next seven days. SORT can also help you find your favorite game or sports or children's programs.

And The Benefit of One-Touch Record
Even if your VCR is flashing 12:00, the GUIDE Plus+ GOLD[1] system can record your favorite show. Simply highlight the program you would like to record and press the Record button on the remote. In the Schedule Menu, you can choose to record shows once, daily, or weekly.

News
Review top national and world news stories, updated daily, and accessed through the NEWS Menu item on the Guide bar. Comprehensive coverage includes news, weather, sports and entertainment stories.

- CommercialSkip
  Countdown timer returns TV to original channel, so other channels can be browsed during program breaks.
- **Picture Reset**
  Instantly returns picture to factory settings for Color, Tint, Contrast, Brightness, and Sharpness.
- **Advanced Auto Channel Search**
  Auto Cable/Air Switch sets tuner to cable or "off-air" frequencies during initial setup. Then system automatically scans for and locks active channels into channel memory.
- **On-Screen Menu System**
  On-screen displays make it easy to adjust more picture, sound, and convenience features from either the remote control or the TV front panel buttons.
- **Interactive Setup Menu**
  Convenient on-screen menu system automatically steps user through the initial setup procedures.
- **Trilingual On-Screen Display**
  Allows the on-screen menu system to be displayed in one of three languages (English, French, or Spanish).
- **On-Screen Time and Channel Display**
  Displays time and channel number at the press of a button.
- **Programmable Timer System**
  Convenient scheduling system can be used in a variety of ways:
  –Sleep Timer
  Automatically turns off the TV after a preset time period — for those times when you drift off to sleep in front of the television.
  –Alarm Timer
  Wake up to your favorite morning show or turn on your television automatically to catch your favorite program.
  –Scheduling Timer
  Since the alarm setting remains in the TV memory indefinitely, the TV can be scheduled to turn on at the same time every day.
- ChannelLabeling
  Assign on-screen characters to easily identify channels (e.g., NBC, HBO, ESPN, VH-1).
- **Front Panel Lockout**
  Completely disables front panel controls to prevent toddlers from altering settings.
- **V-Chip Parental Control**
  Puts control back into the hands of the viewer by blocking unwanted television broadcasts with NEW U.S. Government required circuitry. Blocks three types of programs: regular television programs, broadcast movies and unrated programs.
  Program rating information is sent by the broadcaster continuously during the program. The television will match program rating to user preference and block the entire program (when program is aired with the encoded signal). User preference is secured using a four-digit password.
- **Non-Volatile Memory**
  In case of most power outages, the picture adjustments and channel selections are stored in electronic memory.
- **Caption Vision CC Closed Caption Capability[4]**
  Assists the hearing impaired, helps children learn to read, and aids in the teaching of English as a second language. Built-in Closed Caption Decoder displays the audio portion of a program as text on the TV screen (when program is aired with the encoded signal).
